Interests

I am broadly interested in artificial intelligence and machine learning; recently, I am particularly excited about self-supervised learning, curiosity-based exploration, and leveraging internet-scale models and data. I am keen to draw inspiration from intelligence in humans and nature—especially as a goal-post rather than a blueprint. My long-term goal is to develop intelligent agents that can generalize and continually adapt as robustly and efficiently as humans do, allowing them to be *safely* deployed in the real world.

Education

Carnegie Mellon University — **Pittsburgh, PA**
M.S., Computer Science — *(expected) May 2023*
Coursework: 16-824: Visual Learning & Recognition; 10-703: Deep Reinforcement Learning & Control; 10-715: Advanced Intro Machine Learning; 10-721: Philosophical Foundations of Machine Intelligence; 16-811: Math Fundamentals for Robotics

Stanford University — **Palo Alto, CA**
Non-Degree Graduate Student, Computer Science — *Jun. 2020*
Coursework: CS361: Engineering Design Optimization

Columbia University — **New York, NY**
Non-Degree Graduate Student, Computer Science — *May 2019*
Coursework: EECS E6699: Mathematics of Deep Learning

Vanderbilt University — **Nashville, TN**
B.S., Computer Science; B.A., Mathematics — *May 2017*
Relevant Coursework: CS4260: Artificial Intelligence; CS3892: Big Data; CS3270: Prog Languages; CS3250: Algorithms; MA3800: Num Theory; MA2218: Prob/Math Stats; MA2410: Lin Alg; MA2198: Diff Eqns; MA2175: Calc III

Experience

Academia

Robotics Institute — Carnegie Mellon University
Graduate Student Researcher, Advised by Professor Deepak Pathak — *2022–Pres.*
- Working on self-supervised learning using internet data. Collaborators: Alexei Efros

Department of Electrical Engineering and Computer Science — Vanderbilt University
Undergraduate Student Researcher, Advised by Professor Maithilee Kunda — *2016–2018*
- Developed a computational cognitive architecture used to model and understand human visual attention in the context of visual search for a spatiotemporal target (MATLAB).
- Contributed to the development of the Toybox Dataset for small sample learning and hand-object .interaction.

Industry

BlackRock AI Labs

Founding team member and culture carrier. Launched bi-weekly reading group. Co-launched external website. Advised by and worked closely with Mykel Kochenderfer, Stephen Boyd, and Trevor Hastie.

Research Engineer | Palo Alto, CA — *2020–2021*
- Open-sourced two Julia packages for separable optimization problems, presented at JuliaCon 2021. [blog, talk]
- Formulated the securities lending process as a Markov decision process, allowing for optimization of lending policies. Designed and prototyped a multi-agent lending market simulator; showed that learned policies could outperform the existing rule-based policy.
- Created a causal model to forecast the effect of a fee change on inflows for iShares ETFs using GLMNet. Built and deployed a Streamlit webapp to visualize causal predictions that is currently in use by the pricing team.

Machine Learning Engineer | New York, NY *2018–2019*

- Developed a logistic model to assign decomposable daily operational "risk" scores to portfolios. Built an ETL pipeline in Spark to extract 3k+ features from various portfolio management systems and output daily predictions. Project presented to CEO.
- Developed a text classifier to identify compliance rules in Investment Management Agreements using OCR and SpaCy.

BlackRock

Software Engineer | New York, NY *2017*

- Built an ETL pipeline to ingest daily mutual fund reference data using Apache Storm.

Software Engineering Intern | New York, NY *2016*

- Won intern hackathon with a NLP system to extract contract terms from legal documents during new client onboarding.

Open-Source

JuliaFirstOrder/{ **PiecewiseQuadratics.jl**, **SeparableOptimization.jl** } *2021*

Co-authored two Julia packages for solving the problem of minimizing a sum of piecewise-quadratic functions subject to affine equality constraints by applying the Alternating Direction Method of Multipliers (ADMM).

amdegroot/**ssd.pytorch** ★ 4.7k ⑂ 1.7k *2017*

Co-authored the de facto PyTorch implementation of the Single Shot MultiBox Detector, a real-time object detection framework using a single network, shortly after PyTorch's alpha release.

ellisbrown/**name2gender** *2017*

Implemented Naive Bayes & Char-RNN (PyTorch) approaches to inferring gender from character sequences in multinational first names. Wrote a blog post that was pusblished by *Towards Data Science*.

Teaching

Department of Electrical Engineering and Computer Science Vanderbilt University

Teaching Assistant, CS 2201: Program Design & Data Structures *Fall 2015*

- Held weekly office hours for class of 200+ students. Graded weekly progamming assignments and exams.

Publications

Journal

2018 **Ellis Brown**, Soobeen Park, Noel Warford, Adriane Seiffert, Kazuhiko Kawamura, Joe Lappin, and Maithilee Kunda. An Architecture for Spatiotemporal Template-Based Search. *Advances in Cognitive Systems, Volume 6*, 101-118. [paper]

Conference

2018 **Ellis Brown**, Soobeen Park, Noel Warford, Adriane Seiffert, Kazuhiko Kawamura, Joe Lappin, and Maithilee Kunda. SpatioTemporal Template-based Search: An Architecture for Spatiotemporal Template-Based Search. *Sixth Annual Conference on Advances in Cognitive Systems*, Stanford, CA.

Reports

2020 **Ellis Brown**. Securities Lending Policy Optimization. Department of Computer Science, Stanford University, Palo Alto, CA. [paper, video]

2019 **Ellis Brown***, Melanie Manko*, Ethan Matlin*. Modeling Uncertainty in Bayesian Neural Networks with Dropout. Department of Electrical Engineering and Computer Science, Columbia University, New York, NY. (*equal contribution) [paper, slides]

Talks

2021 Linearly Constrained Separable Optimization (oral), *JuliaCon 2021 JuMP-dev track*. [talk]

2019 Modeling Uncertainty in Bayesian Neural Networks with Dropout: the effect of weight prior and network architecture selection (poster), *American Indian Science and Engineering Society National Conference 2019*, Madison, WI. [poster]

2018 SpatioTemporal Template-based Search: An Architecture for Spatiotemporal Template-Based Search (oral), *Sixth Annual Conference on Advances in Cognitive Systems*, Stanford, CA. [slides]

2017 Computational Cognitive Systems to Model Information Salience (oral), *American Indian Science and Engineering Society National Conference 2017*, Denver, CO. [slides, link]

Awards and Honors

- *Scholar*, Lighting the Pathways to Faculty Careers for Natives in STEM, AISES 2021–Pres.
- *Scholar*, Computer Science Research Mentorship Program, Google Research 2021
- *3rd Place,* Graduate Student Research Competition, AISES National Conference *2019*
- *1st Place*, BlackRock Intern Hackathon *2016*
- (2x) *Academic All-American*, USA Water Polo *2012, 2013*

Scholarships

- Intel Growing the Legacy Graduate Scholarship 2021–Pres.
- Osage Nation Higher Education Graduate Scholarship *2021–Pres.*
- Osage Nation Higher Education Scholarship *2013–2017*

Extracurricular Activities

American Indian Science & Engineering Society (AISES)
Volunteer *2019–2021*
- Mentored a Native undergraduate student studying CS through the 2020–2021 Full Circle Mentorship Program.
- Reviewed scholarships for the 2020 AISES Undergraduate Scholarship.
- Judged posters for Undergraduate Student Research Competition at the 2019 National Conference.

Code/Interactive
Mentor *2018*
- Advised and tutored weekly an underprivileged high schooler interested in CS; helped prepare college applications.

Vanderbilt Admissions
Tour Guide *2014–2016*
- Led weekly campus tours to groups of 10-50+ prospective students and families.

Kappa Sigma Fraternity (Kappa Chapter)
Social Chairman *2014–2016*
- Managed $90k annual budget; planned & executed dozens of large-scale events; served on Executive Council.

Water Polo
Captain & President, Vanderbilt Club Team (2014 SEC Champions) *2014–2016*
- Coordinated and led a team of 20+ players through a 10 week season with 2+ travel tournaments.

Trainee, USA Olympic Development Program *2010–2013*
- Trained in the United States National Team Pipeline program. Competed in Junior Olympics.
